Clean Desk Solutions *for Micro*

Optimize desk space with a :behind- the-monitor setup			wall mount/under-the-desk mount		vertical mount
Dell Micro All-in-One Stand - MFS18	OptiPlex Micro AIO Mount for E Series Monitors	Dell Single Monitor Arm - MSA20 + OptiPlex Micro Dual VESA Mount	OptiPlex Micro VESA Mount with Adapter Bracket	OptiPlex Micro DVD+/-RW Enclosure	OptiPlex Micro Vertical Stand
This fully adjustable stand securely houses your Micro and supports VESA compatible monitors up to 12.6lbs in weight.	This mount is designed to mount your Micro to the back of a Dell E-Series monitor.	Mount your Micro between a monitor and an arm using the Dual VESA Mount. The mount also comes with an enclosure to house power adapter. MSA20 supports a total weight of 22lb.	Mount your Micro and its power adapter to a wall or under the desk for greater port accessibility.	This mount comes with all the features of the Micro VESA Mount while also including a DVD Drive.	Reduce footprint by securely mounting Micro in an upright position.
It's the best option for most workspaces. The telescopic handle also makes it a practical option for workspaces where mobility is needed.	Useful for workspaces which already have Dell E-series monitors.	Provides ultimate adjustability and the best experience when used with a touch monitor in workspaces such as a kiosk or a retail endpoint.	Great for wall-mounting in meeting rooms or for community messaging.	Ideal for shared workspaces which benefit from having a DVD Drive such as libraries, lecture halls & media labs.	A practical option where desk space is not severely limited.

Essential Productivity/Collaboration Solutions *for Micro*

Enjoy a comfortable viewing experience	Reduce cable clutter	Experience exceptional audio quality in conference calls		Collaborate
Dell 24 Monitor - P2422H Dell 27 Monitor - P2722H	Wireless Keyboard and Mouse	Dell Pro Wired Headset – WH3022	Dell Slim Soundbar – SB521A	Dell UltraSharp Webcam – WB7022
	 Dell Premier Multi-Device Wireless KM | KM7321W Dell Pro Wireless KM | KM5221			
This monitor optimizes eye comfort with ComfortView and offers great adjustability (pivot, tilt, swivel, adjust height). The three-sized ultrathin bezel makes it great for multi-monitor use.	Enhance your everyday productivity with a quiet full size keyboard and mouse combo that offers programmable shortcuts and 36 months battery life.	Wired Headset for the Office Communicator. Reliable, high quality calls all day, with MS Teams certification and passive noise cancellation.	Optimize your conference calls and multimedia streaming with this stereo soundbar. An included mount offers easy attachment to the monitor.	Provides experience with the best image quality in its class with the world's most intelligent 4K webcam.
A dual monitor setup is useful for task workers in any workspace who spend a lot of time multitasking, window switching, and doing data comparisons.	Useful at home or individual workplaces where security is not a concern. Provides added mobility at home while using your fixed system.	Great for home and office workers in open spaces who prefer having conference calls with a headset.	Perfect for scenarios where desk space is limited. Also works great in small huddle rooms for conferencing.	Ideal for personal space, desk centric use case scenarios for immersive collaboration.
